
Executive Director's Message

"Write your vision upon tablets and wait for the appointed time. Though it will linger, wait for it and it will certainly come and will not delay." Habakkuk 2:2-3

We often hear this message at the beginning of a New Year. January is full of conversations about new goals, vision boards, and resolutions.

Dr. John C. Maxwell says, "we overestimate the event and underestimate the process."

2024 marks the 10th year of dreaming, planning and working on the building of The Filling Station mission. It will be the organization's 7th anniversary, however, the task force began praying, planning and working back in 2014 before we opened our doors in 2017.

We forget that overnight success usually happens over a 20 year period.

"If you want a harvest in 20 years, plant trees,

If you want a harvest in a year, plant wheat,

If you want a harvest for a lifetime, plant people."

Our mission is to assist in filling unmet needs in the areas of Nutrition, Education and Connection serving the residents of Jones County.

Assisting others as they become better versions of themselves as we empower, equip, educate with a faith-based approach.

Giving Tuesday—November 28, 2023 at Union Point Park in New Bern

The Filling Station participated with 40 other nonprofit organizations for Giving Tuesday on November 28th at Union Point Park.

This event was organized by the New Bern Chamber of Commerce Non Profit Council. The Filling Station has now participated in this event for 3 years. Last year, the team received 1st place in the spirit competition and this year received 2nd place for the creative idea of bringing a "Heartland Christmas" to the event. Thank you to all the volunteers and donors who helped to make this

day one of awareness of the mission.

International Paper Awards Grant

The International Paper Foundation has awarded a \$3,200 grant to The Filling Station to stock the pantry with needed non-perishable and hygiene items. This grant is just one example of International Paper's commitment to the company's signature causes, which include education, hunger, health and wellness, disaster relief and initiatives that improve our planet. The company is committed to addressing critical community needs

where our employees live and work.

This funding will help The Filling Station Food Pantry to restock the shelves after the Christmas and New Year distribution.

"We are grateful to International Paper for their generosity as we continue to expand the capacity in serving the clients in Jones County who need it most," says Mary Ann LeRay, Executive Director

New Bern Amateur Radio Club

We appreciate our partnership with New Bern Amateur Radio Club and co-sponsorship with Jones County Emergency Management

Mary Ann LeRay
Executive Director
Filling Station
221 Main Street
Pollockville, NC

Dear Mary,

On behalf of myself and the New Bern Amateur Radio Club I would like to thank you and your organization for the most generous use of your facility. In these times it is hard to find an organization which will sponsor "Ham Radio" classes. Most of time they are not interested or do not have the facility to accommodate such a venture. Your facility provided an excellent environment for both teaching and of course learning. The students were comfortable in the environment which in turn lead directly to their attentiveness.

As with most "Ham Radio" class we started with more than we finished with. In this instance we started with eleven students and finished with ten. This by far much better than an average attendance at the end of the class. Of the 10 students that completed the course all but one earned their General Class Amateur Radio license, of which was far above average when it comes to passing the test.

You may or may not know that Amateur Radio operators play a significant role in emergency communication during disaster, both natural and manmade. Amateur Radio operators set up and operate organized communication networks locally for governmental and emergency officials, as well as non-commercial communication for private citizens affected a disaster. Amateur Radio operators are most likely to be active after disasters that damage regular lines of communications due to power outages and/or destruction of telephone, cellular and other critical infrastructure systems.

By allowing me to teach Amateur Radio your organization has made a significant positive impact in our community. I thank you very much and hope to work with you soon on a more Amateur Radio Classes.

Sincerely

GOOD MORNING 🌻🌻

Make Humanity your Religion

The Filling Station, a dream born out of a long vacant, propane company building, opened its doors on August 28, 2017. Why the Filling Station name? During a walk-through of the building, someone noticed a red hazardous material warning sign with a flame and the number 1075, the DOT classification for propane. The group discovered that Psalm 107:5 read: "They were hungry and thirsty; their lives were slipping away." A new mission was launched and it was called "The Filling Station" to refer to the building's prior use as well as to its new purpose. Our mission is to assist with filling unmet needs in the areas of Nutrition, Education, and Connection serving the residents of Jones County.
